

TEMPEST PRODUCT

Features

The AY-5070Z-DL-L1 integrates the Wyse 5070 SFF into a TEMPEST Unit.

As part of the OEM configuration, it is configured for 100 Mbps and provides SC connectors on the rear panel. The NIC supports IPv6 and PXE 2.0 and is configurable via the BIOS, it ships as enabled. It also supports OEM Enterprise Device Management functions, is managed by Windows and is displayed in the Windows device manager.

Approval Status

Ayon CyberSecurity productions are routinely tested and certified for compliance with TEMPEST and Military Standard specifications as required by individual customer demand.

Warranty

Lifetime TEMPEST Integrity.
